

HAILEY DANGEL

Redmond, WA • 425-223-8606 • haileydangel@gmail.com • <https://github.com/Hailz>

STATEMENT

Bold, straightforward, and inventive full stack web developer that seeks to unify aesthetic and design functionality. My past as a teacher makes me flexible while pursuing end goals, and skilled at keeping track of constantly changing variables.

SUMMARY OF TECHNICAL SKILLS

- Front-End Web Development: HTML, CSS, JavaScript, jQuery
- Back-End Web Development: Ruby on Rails, Node.js
- Programming Fundamentals
- Basics of Product Development

SUMMARY OF NONTECHNICAL SKILLS

- Independant worker and team player
- Excellent organizer
- Strong customer relations
- Fantastic written and oral communication
- Data entry
- Efficient multitasking
- Meticulous attention to detail

EXPERIENCE

General Assembly, Seattle **Student**

January 2017-April 2017

Immersed in a 3 month, 60+ hour/week, project-intensive coding accelerator to solidify web development skills. Designed and built games and web applications with full CRUD functionality, database integration, and user authentication. Used Git through GitHub for source control, studied best practices for DRY coding, RESTful routing, and pair/mob programming in an agile environment.

Kiddie Academy, Kirkland **Lead Teacher**

December 2014-January 2017

Teach and care for a class of eight to twelve 1-1½ year olds. Write individual lesson plans, maintain developmental checklists and other personal forms for each child, and ensure compliance with all licensing and Early Achievers requirements. Constant observation and problem solving while remaining flexible and upbeat.

Blue Sky Cleaners, Kirkland **Customer Service Representative**

July 2013-July 2014

Fox Cleaners, Kirkland **Customer Service Representative**

Oct. 2011-July 2013

J.C. Penny, Alderwood Mall **Customer Service Representative**

Seasonal-2012

Detonator Games, Redmond **Game Tester**

June 2011- Feb. 2012

Tested games for defects by analyzing both functionality and entertainment value. Wrote steps to reproduce discovered errors and communicated with team members to aid in the perfection of the shipping product.
